TEST YOUR Intuition!

- When I am with someone, I am aware of how they feel.
- I always know when something is wrong with my friends or family.
- I have trusted a gut feeling even though the facts tell me otherwise.
- I suddenly think of someone I have not seen or heard from in years and the next day I receive a letter, e-mail or call from them.
- I know who is calling when phone rings.
- When I am introduced to someone new, I know whether we are going to get along.
- I see ghosts, angels, and other invisible beings.
